The purpose of this report is to illustrate the differences between how you scored yourself and the average results from all of the respondents as a whole.

The table above highlights the competencies where the respondents scored you LESS than your own self assessment and also those competency areas where they marked you HIGHER than your own self assessment.

Key:

Positive Difference represents where your respondents have marked you higher than your own score.

Negative Difference represents where you have marked yourself higher than the respondents score.

All scores have been rounded to the nearest whole number.
