Introduction & Objectives

Self-Skills

What makes the difference between 'good' and 'excellent'?

You may have been a manager for some time, but what makes you stand out from the rest? Find out your current personal style and what it means to you and your team

The Personal Skills that allow you to excel

What skills do managers and leaders require to be the best in modern times? Our research has shown the skills the future leader will need to take themselves and their businesses forward

Improving your Emotional Intelligence

A key skill that's needed by today's manager, and one that's vastly under-rated! Take a test to see how you measure up in the emotional intelligence stakes. Analyse why this is such an important skill to develop for the advanced manager

Advanced Communication & Influencing Skills

Learn how to be a master communicator! Learn why it's not enough to just put your message across...it's just as important to understand the other person's point of view. The advanced manager has the skills and techniques to influence and persuade elegantly and with passion! You'll understand what makes others tick, how they process information, what their motivations and preferences are and then, armed with this knowledge, you'll know how to get the best out of them.

Getting the Best from your Team

Use all the skills you have picked up today and from your experience to create and design the best team possible. Analyse motivational techniques, set development plans and develop your team's strengths with our unique 'future-pacing' blueprint. You will never look at management the same way again!

Managing Up & Managing Sideways

There's no manual that provides you with the skills and know-how on how to manage your own boss! Until now of course. This session deals with management approaches and strategies so you'll know how to manage your own boss, learn how to say no and push back in the right way, how to manage their expectations and how to have a productive working relationship. You'll also learn how to manage others who you have no direct responsibility over but who you need to get results through!
