Did you know?

We can run this as an in-house training programme for a cohort or we can use our eco-delivery model and run the programme completely through virtual training and virtual coaching enabling us to run the programme for individual learners.
Who Is This Programme For?

If you manage projects as part of your role but have had no formal training, then this programme is the perfect fit for you.

You’ll learn how to set up, run and manage successful projects and at the same time you’ll also receive the Project Management Qualification (PMQ) from the Association of Project Management.

What Will You Learn?

This 18-month programme is ideal for those employees who have had little project management in the past or they might be managers who are not project managers as such, but who need to set up, manage and run successful projects as part of what they do.

Either way, if the answer is yes then the Associate Project Manager programme will be a perfect solution for them.

The programme will cover all the essential knowledge, skills and behaviours that are required to be a successful project manager.
How Is The Programme Delivered?

We Offer 2 Delivery Routes

**Cohort Delivery**
In-house, customised delivery for a number of you from the same company. Choose from face to face, virtual and online delivery methods.

**Individual Learner**
Monthly 2 hour virtual training and coaching sessions for individual learners. Flexible, remote learning that is personalised to your role.

**Cohort Delivery Options Can Include**

- **Face to Face Masterclasses**
- **LIVE Virtual Workshops**
- **Digital Learning**

Programme Structure

Designed in a way that will maximise the performance of each learner

Learning the theory of a topic is great but it’s what the learner does to embed the learning and actually use it, that matters most. All learning is reinforced with ongoing coaching, online resources and off-the-job activity to bring it all to life. Each part of the programme supports the learner to apply their knowledge and skills via INTENT – IMPLEMENT – IMPACT.

✔️ What did they plan to change? ✔️ What did they change and how? ✔️ What impact did it make?

**Onboarding & Induction**
Initial workshop and event about the programme and how to get a high grade.

**Practical Learning Events**
These can consist of workshops, masterclasses, virtual training, action learning sets, projects or coaching.

**Skills Individual Learning Plan**

Progress Reviews & End Point Assessment

Ongoing Reviews
As part of this programme your learners will receive regular coaching sessions. This will develop their knowledge, skills and behaviours further and also ensure that they’re on track for passing the apprenticeship through tailoring the learning and development to each individual. Evidence of their development will be collated and stored within their e-learning account. This will allow their coach to review the skills and knowledge they have learnt and continually tailor their individual learning plan to their training needs.

Gateway
Before each learner is able to progress to the End Point Assessment (EPA) both you (employer) and their coach will ensure that they have the sufficient levels of knowledge, skills and behaviours required to pass - this is know as Gateway.

Once everyone is in agreement that the learner is ready, they can then progress to the End Point Assessment.

End Point Assessment
All apprenticeships contain a compulsory end of programme assessment, which is called an End Point Assessment (EPA).

Upon successful completion of the Associate Project Manager apprenticeship, learners will achieve both the PMQ from the Association of Project Management and a Higher Apprenticeship in project management – both of which are nationally recognised.

Assessment methods (or components of) can be:
- Observations
- Practical Assessments
- Tests
- Discussion
- Interview
- Presentation & questioning
- Project
- Evidence Portfolio
- Logbooks
